**Wooden containers**

Best all round

German wood producer Böwer has come a long way since its founder Josef Haarmeyer established Neuenkirchen's first carpentry shop in 1888. Today, his descendants Anja and Stefan Böwer are promoting the disappearing craft of wood-turning and precision carpentry. Featured at IMM Köln, these minimalist containers, designed by German wunderkind Eric Degenhardt, are expertly handcrafted from solid ash. In four sizes and in colours ranging from subtle ash and telegrey to reseda green, they're not just handy for decanting your pocket content or desk detritus, they're also beautiful objects in their own right.
